

TOMBSTONE EPITAPH.

PUBLISHED EVERY EVENING.

From Tombstone Daily.
A. D. Keeney, Editor, 31 Main Street.

The stagecoach drivers have all started their horses to their work now.

J. H. Jackson secured a contract for painting 200 miles of road at \$1000 per mile.

The terms of one convict will expire at the Yuma penitentiary next month.

Court convened at 9 o'clock this morning, an hour earlier than usual time.

The republicans of Tucson recently have placed Bert Daniels in nomination for the council.

A. Schwarzenbach, New York, a heavy mine owner in this county, is stopping at the Oasis.

The Disease republicans are coming to the county convention solid for Wm. Place for district attorney.

Miss Nellie Clark returned today from California, where she has been visiting relatives for several months.

Allen English, who has been in southern California for three months past, was a passenger on the incoming stage today.

J. W. Clark, of the Huachuca Water company, returned yesterday from San Francisco, where he has been for a fortnight.

The contract for 2000 cords of wood to be delivered at Huachuca was awarded to a party named Sterry, at \$170 per cord.

John Edwards, of Tucson, has received a telegram from his son, his statement that Edwards will surely come next year.

The new railroad running from Solomonville to Huachuca has been laid, which was expected to be in the train for one day.

J. A. Galt, representing the San Francisco Laundry, will be in Tombstone in a few days to interview his customers and solicit new ones.

The juries in the Welsh-Saxons case were locked up in the court room all night, and found a comfortable night rest on the premises before opening the trial for one day.

The Graham Times is the title of a paper largely by the Oasis or Graham county republicans. It is the same as the Oasis, with a page devoted to Graham county.

The stage line between Douglas and Solomonville has resumed running with the mails. The claim of the contractor is that the railroad charged him more than he got from the government.

J. A. Keeney died at the hospital this morning of consumption. He was buried this afternoon. He had been a patient in the hospital for several months. He has relatives in Portland, Maine.

The stage-driver who was held up between Tonto and Globe a few days ago has been arrested for holding himself up. He robbed the registered mail pouch, and took 95 cents, which was all there was in it.

Dr. Hamilton, who went to Pennsylvania to take a course of lectures, is on his way back to California. He will locate in northern Arizona. It is intimated that his location will be at the Congress mine.

Wake Benja, who shot and killed Tom Wash in the Sulphur Spring valley about three years ago, has just returned to Cochise country. He has been up in Maricopa. He has a leg up there by having it run over by a car.

During the coming army maneuvers the bicycles and the use of racing dogs will be used on a large scale. Household car horses is to some part of the equipment of each infantry corps, and each battalion will have a detachment of racing riders, as well as experts to train them in the use of the wheel.

THE ARIZONA & SOUTHERN.

Between Benson and Fairbank and through Arizona and Southern. The most rapidly growing section of the state of Arizona will be on the Southern.

At the rate of 100 miles a day the railroad will be completed in 100 days.

The bridge across the San Pedro river, 600 feet long, is in course of construction, and it is thought it will be ready for the rails by the time the track reaches it, or within a day or two afterward.

With the San Pedro crossed it will be a matter of only a few days before the track will be laid into Fairbank.

After that there will be some backsplicing and other finishing work to be done before trains will be regular, but regular trains between Benson and Bisbee will probably be running early in October.—Oasis.

Along the Chinese vegetable peddler, an interested observer of the daily proceedings of the district court. He drinks in every word uttered with apparent relish.

The old men of Arizona are talking of erecting a monument to the memory of Horace Greeley, who advised them when to go west. There is a difference of opinion as to what should be inscribed upon the slate.

The republican primaries will be held throughout the country tomorrow. Delegates will elect twelve delegates, being the same number allowed to Bisbee. There appears to be no contest or excitement over the choice of delegates.

Ed. Cain, of Phoenix, George W. Johnson, H. H. Johnson, J.

and C. C. Johnson, are the four chosen.

Tom Hart is a man not easily trifled with, the Welsh, deejay, and this morning, he illustrated the amount of length of a 8' ladder he can get up. The different terms apparently do not mean much, however, and between three and four, he strongly denied the statement made by others that he is the lumberman who is lumbering in the Silver Bell mine, bisecting the very dome.

No man could better learn lessons in music, than to listen to the Welshmen in the Welsh-Saxons case on trial. A. A. Kemp was on the stand this morning and was questioned by the prosecutor regarding the timbering of mines, and he gave a very interesting description of how mines are timbered. Among the questions made was one stating that says timber in the Silver Bell mine, where Welsh was hurt, had been in use for three years and were so rotten that they could be broken over the knee. Mr. Kemp was called for the plaintiff to prove the poor condition of the timbers, the falling of which injured the plaintiff while at work.

The Land of Promise

Is the mighty west, the land that tickled with a lie, a harvest?

The El Dorado of the miner, the goal of the agricultural emigrant.

While it teems with all the elements of wealth and prosperity, some of the fairest and most fruitful portions of it bear a harvest of malaria, reaped in its fullness by those unprotected by a medical safeguard.

No one seeking or dwelling in a malarial locality is safe from the scourge without Hostetter's Stomach Bitters.

Emigrants, hear this in mind. Commercial travelersjourning in malarial regions should carry a bottle of the Bitters in the traditional grip-sack, against the effects of exposure, mental or bodily overwork, damp and uncleanliness, heat and water, it is an infallible defense.

Commercial travelers, however, are not the only ones to be protected.

The Leavened Islands are now exporting large quantities of preserved fruit juice.

The Western Sahara provides a large share of the world's supply of gum arabic.

The Silver valley region exports rice,

beans, dates, honey and cotton and leather.

A Paris newspaper is organizing a campaign to collect money for the

construction of a canal across the Isthmus.

There are the standard 2000 acres,

therefore no reason to fear

of failure.

One of the greatest difficulties

in the construction of the canal is

the want of capital.

Hostetter's Stomach Bitters

are the best remedy for

all diseases.
